EnCORE
Rebuild. Repair. Remanufacture. Exchange.

NO ONE RESPONDS TO YOUR NEEDS LIKE EnCORE

In response to requests for better methods to protect the value of Manitowoc products while reducing operating costs and downtime, Crane CARE is pleased to announce EnCORE, the complete Rebuild, Repair, Remanufacturing and Exchange division of Manitowoc Crane CARE.

The support provided by EnCORE services is one of the best ways to cut operating costs, boost uptime and protect the long lasting value of your Grove, Manitowoc, National and Potain cranes.

With same-as-new factory warranties and the full support of Manitowoc Crane CARE, EnCORE is a smart decision.

Lattice Crane Torque Converter Exchange

Manitowoc cranes employing Vicon® power transmission

systems use up to three torque converters, and demand for replacement can be high. In addition to OEM replacement options, we offer you even greater opportunities for savings with EnCORE remanufactured units.

- 100% genuine Manitowoc crane
- Remanufactured to original specifications
- 12-month warranties for lift cranes, 6-month for duty cycle machines
- Completely factory tested before shipping

When more time is available, EnCORE can remanufacture your machine's current torque converters for even greater savings. As with our off-the-shelf stock, genuine parts are used and warranties included. Turnaround times are approximately one week.

Turntable Bearing Repair

Why risk uptime and profitability by letting unapproved local repair facilities service the turntable bearings of your crane? Protect your investment with factory-trained EnCORE service technicians and GENUINE Manitowoc crane replacement bearings.

- No-obligation inspection and estimate
- Full warranty on all repaired bearings
- Exchange bearings available
- Protect resale value by keeping your crane genuine

Hydraulic Pump, Cylinder and Motor Remanufacturing

Your lower-cost alternative to purchasing new. EnCORE offers complete remanufacturing and repair services for hydraulic pumps, cylinders and motors, including GMK all terrain cranes. Free inspections and free estimates in advance.

- Factory approved repairs and genuine parts protect machine value
- All original engineering specifications are maintained

- Warranties on all service work
- Off-the-shelf and quick-turnaround repair options

Load Moment Indicator Upgrades for Grove and National Crane

- Display actual and allowable load, boom length and angle, and load radius
- Integrated bar graph provides a quick reference of crane utilization
- Upgrades most DS 350 and DS 150 systems
- GMK EKS4 and EKS3 Refurbish/Exchange. Plus, Rebuild for EKS83
- Meets SAE and ANSI B-30-5 standards

Used Parts

As cranes age, affordable parts become scarce and costly. To help you keep your older cranes productive and cost effective, EnCORE holds an ever-growing stock of used parts.

EnCORE used parts are inspected to ensure usability and satisfaction. All used parts carry a 30-day warranty or exchange policy and are available through authorized Manitowoc Crane CARE distributors. You keep your cranes working at a fraction of the cost of new with guaranteed serviceability.
