Customize your crane

Lift Solutions is a service Manitowoc provides to quote, plan and produce the crane your unique applications require.

Our experienced team of knowledgeable professionals is dedicated to providing you the customizations you need to get and keep you working.

Manitowoc Cranes recognizes that no two jobs are the same and that no two cranes are the same either. With that in mind, our team will work hard to help you configure your crane to meet your individual application requirements, making your Manitowoc Crane the best tool for the job.

Customer service

To ensure you are receiving exceptional support, you will have a central contact person throughout the duration of our project. Your central contact person will ensure the project is executed efficiently and can answer any questions.

Uptime

Our team is focused on you, your needs and providing your crane customization quickly, so that you can get to work as soon as possible.
